

# THE ROAD TO A SNOW DAY

in Livingstone Range School Division

Are buses cancelled? Is it a snow day?  
Are schools closed? When snow falls,  
here's what happens.

## SAFETY ASSESSMENT

Our Transportation Department assess travel safety by looking at:

- Road conditions and visibility
- Temperature and wind chill
- Reports from bus drivers
- Weather warnings
- RCMP travel advisories

## BUS CANCELLATIONS

**Buses are cancelled only when it is determined that it is unsafe for bus operators to transport students.**

Buses are cancelled on a route-by-route basis. Just because one bus in an area is cancelled does not mean that others are. Click the bus icon on our website for more information.

## COMMUNICATION

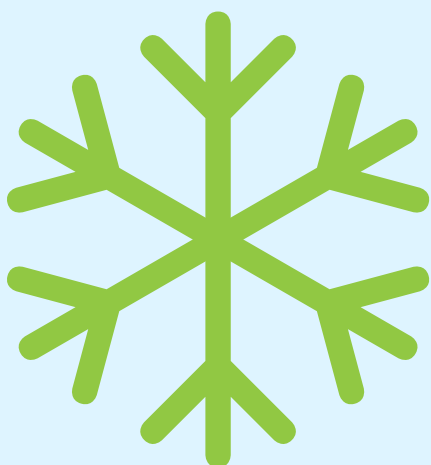

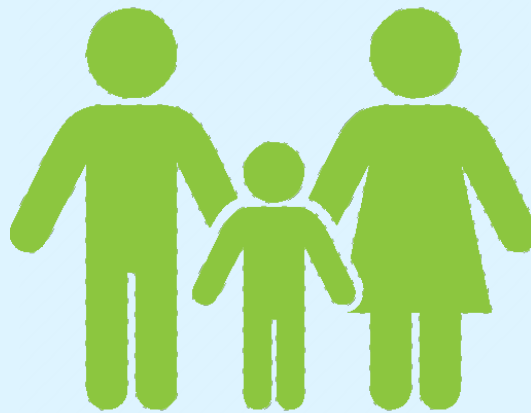

**When the decision is made to not operate a bus route, the bus driver will notify parents on that route. Route status is regularly updated on the Division website.**

Even if buses are cancelled, schools may remain open and teachers will still provide meaningful instruction to students in attendance.

## PARENT RESPONSIBILITY

**Parents always have the right to make the final decision about whether or not to send their child to school.**

Safe transportation to and from school is the parent's responsibility when buses are not running. Ensuring children are suitably dressed for the weather is always a parent's responsibility.

## SCHOOL CLOSURE

**When school closures occur, we will do our best to notify families as soon as possible.**

We will use our websites, social media channels, and automated messaging system to inform families. Please check these resources before sending your child to school.
